PERSONAL SUMMARY

Full-Stack Developer and Digital Marketing Strategist with 5+ years of experience in building simple to moderately complex web systems, mobile applications, and managing successful social media campaigns. Seeking to join a dynamic team to enhance my skills and deliver innovative solutions that drive company growth. Combining programming and digital marketing to create integrated solutions that boost profitability and audience reach. Passionate about learning and exploring modern technologies to deliver exceptional value.

STRENGTHS

- Leading development teams to meet project deadlines.
- Translating ideas into viable digital products.
- Flexibility in managing cross-disciplinary projects (development + marketing).
- Rapid learning of new technologies to achieve business goals.

★ KEY EXPERTISE

- Web & Mobile App Development (Frontend & Backend)
- Custom Enterprise Management Systems.
- Effective Social Media Marketing Campaigns.

WORK HISTORY

Head of Software Department at Milkyway Media Production, İstanbul

January 2019 — June 2023

- Led a 10-member team (developers, designers, marketers) to deliver software solutions for diverse sectors (education, e-commerce, logistics).
- Reduced project delivery time by 40% by streamlining review processes.
- Developed the company website mwaymedia.com with a custom WordPress theme (SEO score: 95/100).
- Implemented automated workflows in a new task management system, significantly enhancing team productivity using Trello integration.
- Integrated Google Calendar API for appointment booking and built an online equipment rental tool with payment integration.
- Created an internal task management system, cutting wasted time by 50%.

Freelance Software Developer & Digital Marketer, İstanbul

January 2023 — Present

Design and implementation of integrated software projects for startups and SMEs.

Notable Projects:

- Labor Management System (Kuwait): Engineered a labor management system employing Java and JavaFX, enhancing recruitment efficiency by 40% and enabling seamless integration with existing HR platforms.
